

THERMAL SOLUTION PROVIDER

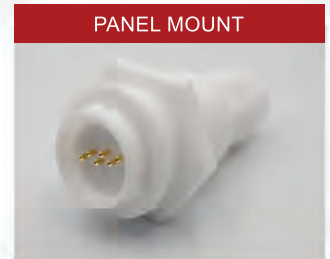

MAGNA-PLUG

Magnetic Connector

Patent pending

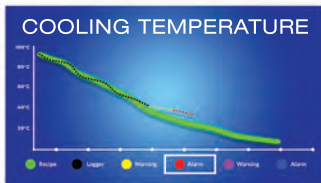

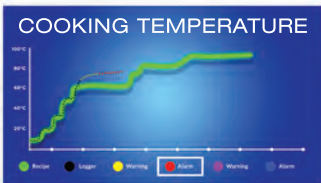

No more sensor or cable damage - No more production downtime - No need to remove the probe
Self-Mating - Impossible to invert connections - Use for low voltage and signal application

SIMPLY PULL OUT THE CABLES AND THE MAGNA-PLUG DISCONNECTS AUTOMATICALLY

THERMAL TRACE

Real Time Wireless Temperature Monitoring and Predictive Recipe System

Predicts if the recipe will not be ready on time. Analyzes cooling rate of the meat in real time.

Reports generated automatically without any employee intervention.

SERVICES

Panel Assembly
